

Cloud Computing and Big Data Task

31-10-2025 & 3-10-2025

1. What is NoSQL? Why is it used?
2. Explain the advantages and limitations of NoSQL databases.
3. Compare SQL and NoSQL with suitable examples.
4. With a neat diagram, explain HDFS architecture and working.
5. Explain the data management technique of Hadoop.
6. Explain the major components of Hadoop:
 - HDFS
 - MapReduce
 - YARN
7. What are the differences between Hadoop 1.0 and Hadoop 2.0?

4-10-2025 & 7-10-2025

8. What is Cloud Computing? Explain with examples.
9. Compare Traditional IT infrastructure with Cloud Computing.
10. Explain different types of Cloud Service Models (IaaS, PaaS, SaaS).
11. Explain Cloud Deployment Models with neat diagrams.
12. Compare Public, Private, Hybrid, and Community Clouds.
13. Describe the network-level security issues in Cloud Computing.
14. Explain the application-level security challenges in Cloud Computing.
15. Describe threats and risks involved in Cloud Computing.
16. Discuss advantages and limitations of Cloud Computing in business intelligence applications.
17. Explain the concept of a Private Cloud vs. Public Cloud.
18. What are the benefits offered by multi-cloud systems?
