React Native Mobile Application Project Topics for Students

15 project ideas suitable for practical/project work, with suggested features and React Native concepts.

Project Topics

No.	Project Topic	Suggested Features / React Native Concepts
1	**Student Attendance Management App**	Student registration, attendance marking, percentage calculation, local storage, reports
2	**Campus Event Management App**	Event listing, registration, notifications, calendar, navigation
3	**College Bus Tracking App**	Bus routes, GPS/location, map integration, driver information, notifications
4	**Online Food Ordering App**	Restaurant list, food menu, cart, order placement, payment UI
5	**Personal Expense Tracker**	Add expenses, categories, monthly summary, charts, AsyncStorage/SQLite
6	**Hospital Appointment Booking App**	Doctor profiles, available slots, appointment booking, reminders
7	**Fitness and Workout Tracker**	Exercise plans, workout tracking, progress monitoring, timers
8	**Smart To-Do and Reminder App**	Task creation, priorities, reminders, notifications, status tracking
9	**Online Learning / E-Learning App**	Courses, videos, quizzes, progress tracking, user authentication
10	**Lost and Found Campus App**	Upload images, item details, search/filter, contact owner, location
11	**Emergency SOS and Safety App**	Emergency contacts, location sharing, SOS button, SMS/call integration
12	**Local Tourism Guide App**	Places, maps, images, directions, reviews, favorite locations
13	**Library Management Mobile App**	Book search, availability, issue/return records, due-date reminders
14	**Medicine Reminder and Health Log App**	Medicine schedule, reminders, daily logs, notifications, history
15	**Smart Parking Management App**	Parking-slot availability, slot booking, location, booking history

Recommended Projects for Demonstrating React Native Features

Project	Features Students Can Demonstrate
Personal Expense Tracker	Components & styling, navigation, forms, AsyncStorage/SQLite, charts, CRUD
Campus Event Management App	Navigation, lists, forms, images, API integration, notifications
College Bus Tracking App	Geolocation API, maps, permissions, API integration, notifications
Lost and Found App	Camera/image access, image upload, forms, search/filtering, backend/API
Hospital Appointment App	Authentication, navigation, API/database, date selection, notifications, CRUD

Project selection tip: Choose a topic that allows you to demonstrate multiple React Native concepts such as components, navigation, forms, API integration, device APIs, local/database storage, notifications, and authentication.
