

INDEX

Ex No	CONTENTS	Page No.	REMARKS
PART-A: MS WORD			
01	Prepare a document using different formatting tools.		
02	Prepare a document using smart art and shapes tools.		
03	Prepare a document with table to store sales details of a company for different quarters and calculate total, average and find maximum, minimum, sales value.		
04	Prepare interview call letters for five candidates describing about the company and instructions about the interview. Use mail merge feature		
PART-B: MS POWERPOINT			
01	Create a presentation (minimum 5 slides) about your college. It should Contain images, chart, bulleted text ...the slides should be displayed automatically in a loop		
02	A simple quiz program. Use hyperlinks to move to another slide in the presentation to display the result and correct answer/ wrong answer status. Use at least four questions.(navigation must be done by hyperlink)		
03	Create a presentation for a business proposal (minimum 5 slides). • Slides must include company logo in header • A title slide with table of contents • financial data of the company in the table • Company sales and profit in charts • Make use of animation and transition		
04	Create a presentation for a college project (minimum 5 slides). • Master slide • Add comments for each slide • Add Audio and video to the slide • Add header and footer. • Add source citation • Make use of animation and transition [Presentation must include title slide, Module Design, Chart, references]		

PART-C MS EXCEL			
01	Create a worksheet to maintain student information such as RollNo, Name, Class, Marks in three subjects of 10 students. Calculate total marks, average and grade. Find grade for Distinction, First class, Second class, Pass and Fail using normally used conditions. • Using custom sort, sort the data according to class: - Distinction first, First Class next, and so on. Within each class, average marks should be in descending order. • Also draw the Column Chart showing the RollNo versus Average scored.		
02	Prepare a worksheet to store details of electricity consumed by customers. Details are Customer No, Customer Name, Meter No, Previous meter reading, Current meter reading of 10 customers. Calculate total number of units consumed and total amount to be paid by each consumer using following conditions:		

	• If unit consumed is up to 30, charge is 100. • 31 to 100 units, 4.70 per unit • 101 to 200 units, 6.25 per unit • Above 200 units, 7.30 per unit. • Use Data validation to see that current reading is more than previous reading. • Arrange the records in the alphabetic order of names. • Filter the records whose bill amount is more than Rs.1500.																																																																				
03	Create Employee worksheet having EmpNo, EmpName, DOJ, Department, Designation and Basic Pay of 8 employees. Calculate DA, HRA, Gross Pay, Profession Tax, Net Pay, Provident Fund as per the rule: • DA = 30% of basic pay • HRA = 10% of basic pay if basic pay is less than 25000, 15% of basic pay otherwise. • Gross =DA +HRA+ Basic pay • Provident fund =12% of Basic pay or Rs.2000, whichever is less. • Profession Tax= Rs.100 if Gross pay is less than 10000, Rs.200 otherwise. • NetPay = Gross - (Professional tax + Provident Fund) • Using Pivot table, display the number of employees in each department and represent it using Pie chart.																																																																				
04	Create a table COMMISSION containing the percentage of commission to be given to salesmen in different zones as follows: <table border="1"><thead><tr><th>Zone</th><th>Percentage</th></tr></thead><tbody><tr><td>South</td><td>10</td></tr><tr><td>North</td><td>12.5</td></tr><tr><td>East</td><td>14</td></tr><tr><td>West</td><td>13</td></tr></tbody></table> Create another table SALES in the same worksheet to store salesman name, zone name, place, name of the item sold, rate per unit, quantity sold. Calculate total sales amount of each salesman. Referring the COMMISSION table, write the formula to compute the commission to be given. (Hint: Use if function and absolute cell addresses) Using advanced filtering show the result in other parts of the worksheet. • Show the records of various zones separately. • Show the records of only East and West zones. • Display the details of the items sold more than 50, in South or North zones.	Zone	Percentage	South	10	North	12.5	East	14	West	13																																																										
Zone	Percentage																																																																				
South	10																																																																				
North	12.5																																																																				
East	14																																																																				
West	13																																																																				
PART –D MS ACCESS																																																																					
01	Create Employee database and table Emp using MS ACCESS with following Structure <table border="1"><thead><tr><th>Emp no</th><th>Ename</th><th>Designation</th><th>Dep tno</th><th>DOJ</th><th>Basic Salary</th></tr></thead><tbody><tr><td>101</td><td>RAMESH</td><td>MANAGER</td><td>10</td><td>10/10/2000</td><td>25000</td></tr><tr><td>102</td><td>SMITHA</td><td>CLERK</td><td>12</td><td>12/5/1999</td><td>15000</td></tr><tr><td>103</td><td>DEVIKA</td><td>ATTENDER</td><td>10</td><td>11/9/2001</td><td>12000</td></tr><tr><td>104</td><td>RAJESH</td><td>HR</td><td>15</td><td>15/4/2000</td><td>12000</td></tr><tr><td>105</td><td>GIRISH</td><td>SUPERVISOR</td><td>12</td><td>6/11/2005</td><td>18000</td></tr><tr><td>106</td><td>SATHYA</td><td>DRIVER</td><td>16</td><td>11/9/2001</td><td>11000</td></tr><tr><td>107</td><td>MANOJ</td><td>SWEEPER</td><td>10</td><td>22/6/2006</td><td>8000</td></tr><tr><td>108</td><td>BHOOMI KA</td><td>SECURITY</td><td>15</td><td>12/5/1999</td><td>10500</td></tr><tr><td>109</td><td>KIRAN</td><td>CLERK</td><td>14</td><td>11/9/2001</td><td>15000</td></tr><tr><td>110</td><td>PRATHIK SHA</td><td>SUPERVISOR</td><td>10</td><td>8/8/2005</td><td>18000</td></tr></tbody></table> Perform following operation: a) List all the Employees Who are working in Dept no.10 b) List all the Employees who get less than 20000 Salary c) Update Salary by adding the increments as per the following:- i. 10% Increment in Basic Salary who get < 20000 ii. 5% Increment in Basic Salary who get >=20000.	Emp no	Ename	Designation	Dep tno	DOJ	Basic Salary	101	RAMESH	MANAGER	10	10/10/2000	25000	102	SMITHA	CLERK	12	12/5/1999	15000	103	DEVIKA	ATTENDER	10	11/9/2001	12000	104	RAJESH	HR	15	15/4/2000	12000	105	GIRISH	SUPERVISOR	12	6/11/2005	18000	106	SATHYA	DRIVER	16	11/9/2001	11000	107	MANOJ	SWEEPER	10	22/6/2006	8000	108	BHOOMI KA	SECURITY	15	12/5/1999	10500	109	KIRAN	CLERK	14	11/9/2001	15000	110	PRATHIK SHA	SUPERVISOR	10	8/8/2005	18000		
Emp no	Ename	Designation	Dep tno	DOJ	Basic Salary																																																																
101	RAMESH	MANAGER	10	10/10/2000	25000																																																																
102	SMITHA	CLERK	12	12/5/1999	15000																																																																
103	DEVIKA	ATTENDER	10	11/9/2001	12000

110	PRATHIK SHA	SUPERVISOR	10	8/8/2005	18000																																																																

02

Create the “Order” database and a table “Orderdtl” having following records:

Order No	Order Date	Order Item	Order Qty	Order Price	Client Code	Delivery Type	Order Status
1011	12/02/2015	LED Monitors	100	750000	1025	Road	Delivered
1012	12/03/2015	CPU	12	500000	1026	SHIP	Not Delivered
1005	15/02/2014	Keyboard	80	48000	1027	Road	Delivered
1010	02/02/2016	LED Monitors	30	64000	1028	Flight	Delivered
1016	19/4/2015	Scanner	40	35000	1029	Road	Delivered
1009	9/05/2018	LED Monitors	25	125000	1030	Flight	Not Delivered
1008	13/8/2017	CPU	25	450000	1031	SHIP	Delivered
1014	1/7/2018	Printer	50	90000	1032	Road	Not Delivered

Execute following Query

- Display all the Order No. which have not been yet Delivered.
- Display all the Orders of LED Monitor and CPU.
- Display all the Orders of LED Monitor and CPU which are not have been delivered yet.

03

Create a “Stock” database having “Inventory” table:

Item Code	Item Name	Opening Stock(Qty)	Purchase(Qty)	Sale (Qty)	Closing Stock(Qty)	Remark
101	MONITOR	100	25	35		
102	PRINTER	75	40	15		
103	SCANNER	120	30	20		
104	CPU	50	35	10		
105	KEYBOARD	105	45	55		

Execute following Query

- Calculate the closing stock of each item (Closing Stock = Opening Stock + Purchase – Sales)
- Display all the Items which has closing stock < 100
- If closing stock is less than 100 then set the remark as “Re-Order Level” otherwise “Enough Stock”.

04

Create a “Company” database having “Sales” table with fields saleid, quarter, product, no_of_sales.

Perform the followings:

- Design a form to insert records to Sales table
- Generate a report to display Sales details of product based on quarters.

Program 01: Prepare a document using different formatting tools.

Highlights of the National Educational Policy(NEP 2020)

Note 4 students

From UPSC perspective, the following things are important:

Prelims level: National educational policy

Mains level: need for imbuing competitiveness in Indian education system

New policy aims for universalization of education from pre-school to secondary level with 100 % gross enrolment ratio(GER) in school education by 2030. NEP 2020 will bring 2 crores out of school children back into the mainstream through the open schooling system.

- ❖ *The current 10+2 systems to be replaced by a new 5+3+3+4 curricular structure corresponding to ages 3-8, 8-11, 11-14 and 14-18 years respectively.* This will bring the hitherto uncovered age Group of 3-6 years under the school curriculum, which has been recognized globally as the crucial stage of the development of mental faculties of a child.
- ❖ The new system will have 12 years of schooling with three years of anganwadi/pre-schooling
 - Emphasis on Foundational literacy and Numeracy, no rigid separation between academic streams, extracurricular, vocational stream in school, vocational education to start from class 6 with intership.
 - Teaching up to at least grade 5 to be in mother tongue/regional language, no language will be imposed on any student.
- Assessment reforms with **360° Holistic Progress card** for achieving learning outcomes.
- A new and comprehensive National curriculum framework for Teacher Education, NCFTE 2021, will be formulated by the NCTE in consultation with NCERT.
- By 2030, the minimum degree qualification for teaching will be a 4 years integrated B.Ed degree.

- Gross Enrolment Ratio in higher education to be raised to **50% by 2035, 3.5 crore seats to be added in higher education.**
- The policy envisages broad-based, multidisciplinary, holistic undergraduate program with flexible curricula, creative combination of subjects, integration of vocational education and multiple entries and exit point with appropriate certification.
- Academic bank with credits to be established to facilitate transfer of credits.

Multidisciplinary education and research and universal of (MERCUS) at par with IITs, IIMs, to be set up as models of best multidisciplinary education of global standard in the country

affiliation of colleges is to be **phased out in 15 years** and stage-wise mechanism is to

be established for granting graded autonomy to colleges

over a period of time is envisaged that every college would develop into either an autonomous degree granting college or a constituent college of a university

$$\frac{df}{dt} = \lim_{h \rightarrow 0} \frac{f(t+h) - f(t)}{h}$$

$$(a + b)^2 = a^2 + 2ab + b^2$$

$$(a - b)^2 = (a + b)^2 - 4ab$$

$$a^2 + b^2 = (a - b)^2 + 2ab$$

Program 02: Prepare a document using Smart Art and Shapes tools.

Organization chart-administration Faridabad division

Program 03: Prepare a document with table to store sales details of a company for different quarters and calculate total, average and find maximum, minimum sales value.

Branch code	Branches	Sales in quarters				Total	Average
		1	2	3	4		
A101	Manglore	354690	244610	383290	413670	1396260	349065

Lowest sales(across branches)	=Min(C3:C12)

Program 04: Prepare interview call letters for five candidates describing about the company and instructions about the interview. use mail merge feature.

Interview call Letter Format

Date:

[Name of the candidate]

[Address]

Dear [name of the candidate]

This is to the reference of your application for the job [name of the job] indicating interest in seeking employment in our organization. We thank you for the same.

We would like to inform you that your profile is being shortlisted for the job role and is best suited for it. Therefore, we would like to take a face to face interview with you on [date of interview] at [venue details].

We hope that the venue is suitable for you. If not please get in touch with us, so that we can arrange the date and venue according to your availability.

The company will reimburse you all the expenses incurred by you for this interview. This letter has an attachment in which you need to fill the details and carry it along on the date of interview. Please carry your CV also along with you.

Kindly confirm your availability for the date and venue. If there are any changes to be done, please contact us at phone number. [999xxxx999] and email id: abcnd@mail.com.

We look forward to seeing you.

Regards.

Program 01: Create employee database and table emp using MS ACCESS with following structure.

Perform following operation:

- a) List all the employee who are working in deptno.10
- b) List all the employee who get less than 20000 salaries.
- c) update salary by adding the increments as per the following:
 - i)10% increment in Basic salary who get <20000
 - ii)5% increment in Basic salary who get >=20000

Employee table design view:

Field Name	Data Type
Empno	Number
Ename	Short Text
designation	Short Text
deptno	Number
doj	Date/Time
basicsalary	Currency

Employee table:

Program 02: Create the “Order” database and table “orderdtl” having following records. Execute following query:

- Display all the Order no which have not been yet Delivered.
- Display all the Orders of LED Monitor and CPU
- Display all the Orders of LED Monitor and CPU which are not have been delivered yet.

Orderdtl table design view:

Field Name	Data Type
orderno	Number
order date	Date/Time
orderitem	Long Text
orderqty	Number
orderprice	Currency
clientcode	Number
deliverytype	Short Text
orderstatus	Short Text

Orderdtl Table:

orderno	order date	orderitem	orderqty	orderprice	clientcode	deliverytype	orderstatus
1008	13-08-2017	CPU	25	₹ 4,50,000.00	1031	ship	delivered
1009	09-05-2018	LED monitor	25	₹ 1,25,000.00	1030	road	not delivered
1010	02-02-2016	LED monitor	30	₹ 64,000.00	1028	road	delivered

Program 03: Create a “stock” database having “inventory” table:

Execute following query:

- Calculate the closing stock of each item (closing stock=opening stock + purchase - sales)
- Display all the items which has closing stock<100
- If closing stock is less than 100 then set the remarks as “re-order level” otherwise “enough stock”.

Inventory table design view:

Field Name	Data Type
itemcode	Number
itemname	Short Text
openingstock	Number
purchase	Number
sale	Number
closingstock	Number
remark	Short Text

Inventory table:

itemcode	itemname	openingstock	purchase	sale	closingstock	remark
101	monitor	100	25	35	90	re-orderlevel
102	printer	75	40	15	100	enoughstock

Program 04: Create a “Company” database having “Sales” table with fields saleid, quarter, product, no_of_sales

Perform the following:

- A) Design a form to insert records to sales table.**
- B) Generate a report to display sales details of product based on quarters.**

Sales table design view:

Field Name	Data Type
salesid	AutoNumber
quarter	Number
product	Short Text
no_of_sales	Number

a) Design a form to insert records to sales table:

Step: Create->form design->add existing fields

Sales form design view:

Detail	
salesid	salesid
quarter	quarter
product	product
no_of_sales	no_of_sales
Add Record	
Save Record	

Insert records to sales table:

salesid	1
quarter	1
product	laptop
no_of_sales	10
Add Record	
Save Record	

Sales table:

salesid	quarter	product	no_of_sales
1	1	laptop	10
2	1	cpu	20
3	1	monitor	30
4	2	keyboard	30
5	2	mouse	20
6	2	desktop	20
7	3	CPU	10
8	3	mouse	30
9	3	keyboard	20
10	1	desktop	10
11	2	keyboard	30
12	3	cpu	40

b) Generate a report to display sales details of product based on quarters:

Step: create->report design->add existing fields

Quarterly sales report design view:

1	2	3	4	5	6	7	8	9	10	11	12	13
Report Header												
Quarter sales report												
Page Header												
								salesid	product	no_of_sales		
quarter Header												
quarter		quarter										
Detail												
								salesid	product	no_of_sales		
quarter Footer												
								total		=Sum([no_of_sales])		
Page Footer												
Report Footer												
								grand total		=Sum([no_of_sales])		

Output:

Program 01: Create a presentation (minimum 5 slides) about your college. It should contain images, chart, Bulleted text... The slides should be displayed automatically in a loop

SACRED HEART COLLEGE

MADANTHYAR

COURSES

- BA
- BCA
- BCOM
- MCOM

ABOUT

- ❖ Sacred Heart College have good lecturers.
- ❖ It is known for discipline.
- ❖ Sacred Heart College is secured A grade by NAAC

STRENGTH

THANK YOU

Program 02: A simple quiz program. Use hyperlinks to move to another slide in the presentation to display the result and correct answer / wrong answer status. Use at least four questions. [Navigation must be done by hyperlinks]

COMPUTER QUIZ

START

Q1. What is the full form of CPU

- A. [Central Processing Unit](#)
- B. [Center Processing Unit](#)
- C. [Central Processor Unit](#)
- D. [Central Processing Uniting](#)

Result – Wrong!

Your answer is **wrong**!

[Next Question](#)

Result – Right!

Your answer is **correct**!

[Next Question](#)

Q2. What is the full form of RAM

- A. [Random Access Memory](#)
- B. [Random Accessible Memory](#)
- C. [Run Access Memory](#)
- D. [Read Access Memory](#)

Result – Wrong!

Your answer is **wrong**!

[Next Question](#)

Result – Right!

Your answer is **correct**!

[Next Question](#)

Q3. What is the full form of ROM

- A. [Read Only Memory](#)
- B. [Random Operator Memory](#)
- C. [Run Only Memory](#)
- D. [Render Only Memory](#)

Result – Wrong!

Your answer is **wrong**!

[Next Question](#)

Result – Right!

Your answer is **correct!**

[Next Question](#)

Q4. What is the full form of ALU

- A. [Arithmetic Logic Unit](#)
- B. [Algebra Logic Unit](#)
- C. [All Logic Unit](#)
- D. [Algebra Loop Unit](#)

Result – Wrong!

Your answer is **wrong!**

[End Quiz](#)

Program 03: Create a presentation for a business proposal (minimum 5 slides).

- Slides must include company logo in header
- A title slide with table of contents
- Financial data of the company in the table
- Company sales and profits in the charts
- Make use of animations and transitions

InfoTech Studio

NEW DELHI

CONTENTS OF INFOTECH

- About
- Financial data
- Sales and profit

Financial data

SL. NO.	MONTH	FINANCIAL DATA
1	JAN – MAR	50000
2	APR – JUN	40000
3	JUL – SEP	60000
4	OCT – DEC	80000

Sales and profit

THANK YOU

Program 04: Create a presentation for a college project (minimum 5 slides). Master Slide, Add comments for each slide, Add audio and video to the slide, Add header and Footer, Add source citation and make use of animations and transitions [Presentation must include title slide, Module Design, Chart, References]

Program 01: Create a worksheet to maintain student information such as RollNo, Name, Class, Marks in three subjects of 10 students. Calculate total marks, average and grade. Find grade for Distinction, First class, Second Class, Pass and Fail using normally used conditions.

- Using custom sort, sort the data according to class:- Distinction first, First class next, and so on. Within each class, average marks should be in descending order.
- Also draw the Column Chart showing the RollNo versus Average scored.

Roll No	Name	Class	M1	M2	M3	Total	Average	Grade
R101	Ashwith	BCA	99	99	99	297	99.00	Distinction
R105	Sudarshan	BVOC	88	74	83	245	81.67	Distinction
R103	Kumar	BA	77	50	94	221	73.67	FIRST CLASS
R102	Arjun	BBA	60	51	74	185	61.67	FIRST CLASS
R110	Levi	BVOC	55	43	66	164	54.67	SECOND CLASS
R109	Zeke	BCOM	56	37	62	155	51.67	SECOND CLASS
R106	Dharshan	BCA	47	38	46	131	43.67	PASS
R108	Rajesh	BA	46	36	49	131	43.67	PASS
R107	Abdul	BBA	27	77	99	203	67.67	FAIL
R104	Sumith	BCOM	91	24	73	188	62.67	FAIL

Column chart:

RollNo Vs Average

Formula:

Total	=SUM (D2 : F2)
Average	=AVERAGE (D2 : F2)
Grade	=IF (OR (D2 < 35, E2 < 35, F2 < 35), "FAIL", IF (H2 < 50, "PASS", IF (H2 < 60, "SECOND CLASS", IF (H2 < 75, "FIRST CLASS", "DISTINCTION"))))

Program 02: Prepare a worksheet to store details of electricity consumed by customers. Details are Customer No, Customer Name, Meter No, Previous meter reading, Current meter reading of 10 customers. Calculate total number of units consumed and total amount to be paid by each customer using following conditions:

- If unit consumed is up to 30, charge is 100.
- 31 to 100 units, 4.70 per unit
- 101 to 200 units, 6.25 per unit
- Above 200 units, 7.30 per unit
- Use Data validation to see that current reading is more than previous reading
- Arrange the records in the alphabetic order of names
- Filter the records whose bill amount is more than Rs. 1500

Work sheet:

Customer No	Customer Name	Meter No	Previous	Current	Total Units	Amount
C101	Avinash	BL101	100	290	190	991.5
C102	Prashanth	BL102	100	250	150	741.5
C103	Prasthuth	BL103	90	210	120	554
C104	Hithesh	BL104	80	700	620	4120
C105	Ashwanth	BL105	70	425	355	2185.5
C106	Harshith	BL106	62	150	88	372.6
C107	Nithesh	BL107	65	170	105	460.25
C108	Bhagath	BL108	15	50	35	123.5
C109	Sharath	BL109	110	220	110	491.5
C110	Prasad	BL110	50	330	280	1638

Data validation to see that current reading is more than previous reading:

Customer No	Customer Name	Meter No	Previous	Current	Total Units	Amount
C101	Avinash	BL101	100	90	-10	100
C102	Prashanth	BL102	100	250	150	741.5
C103	Prasthuth	BL103	90	210	120	554
C104	Hithesh	BL104	80	700	620	4120
C105	Ashwanth	BL105	70	425	355	2185.5
C106	Harshith	BL106	62	150	88	372.6
C107	Nithesh	BL107	65	170	105	460.25
C108	Bhagath	BL108	15	50	35	123.5
C109	Sharath	BL109	110	220	110	491.5
C110	Prasad	BL110	50	330	280	1638

Filter the records while bill amount is more than Rs. 1500

Customer No	Customer Name	Meter No	Previous	Current	Total Units	Amount
C104	Hithesh	BL104	80	700	620	4120
C105	Ashwanth	BL105	70	425	355	2185.5
C110	Prasad	BL110	50	330	280	1638

Formula:

Total unit	=E2 – D2
Amount	=IF (F2 <= 30, 100, IF (F2 <= 100, 100 + (F2 – 30) * 4.7, IF (F2 <= 200, 429 + (F2 – 100) * 6.25, 1054 + (F2 – 200) * 7.3)))

Program 03: Create Employee worksheet having EmpNo, EmpName, DOJ, Department, Designation and Basic Pay of 8 employees. Calculate DA, HRA, Gross Pay, Profession Tax, Net Pay, Provident Fund as per the rule:

- **DA = 30% of basic pay**
- **HRA = 10% of basic pay if basic pay is less than 25000, 15% of basic pay otherwise**
- **Gross = DA + HRA + Basic Pay**
- **Provident Fund = 12% basic pay or Rs. 2000, whichever is less**
- **Profession Tax = Rs. 100 if Gross pay is less than 10000, Rs. 200 otherwise**
- **Net Pay = Gross – (Professional Tax + Provident Fund)**
- **Using Pivot table, display the number of employees in each department and represent it using Pie chart in each department and represent it using pie chart**

Work sheet:

Employee Code	Employee Name	Date of Join	Department	Designation	Basic Salary	Daily Allowance	HRA	Gross Salary	Providend Fund	Proffession Tax	Net Salary
A101	Ajith	1/10/2025	IT	Engineer	30000	9000	4500	43500	2000	200	41300
A102	Prashanth	2/10/2025	Marketing	Marketing Staff	35000	10500	5250	50750	2000	200	48550
A103	Avinash	3/10/2025	Sales	Sales Head	40000	12000	6000	58000	2000	200	55800
A104	Prashanth	4/10/2025	IT	Engineer	15000	4500	1500	21000	1800	200	19000
A105	Prashanth	5/10/2025	Marketing	Marketing Staff	2500	750	250	3500	300	100	3100
A106	Ankith	6/10/2025	Sales	Sales Head	50000	15000	7500	72500	2000	200	70300
A107	Ashwath	7/10/2025	IT	Engineer	55000	16500	8250	79750	2000	200	77550
A108	Hithesh	8/10/2025	Marketing	Marketing Staff	5000	1500	500	7000	600	100	6300

Pivot table to display the number of employee in each department:

Row Labels	Count of Designation
IT	3
Marketing	3
Sales	2
Grand Total	8

Pie Chart:

Formula:

DA	=0.3 * F2
HRA	=IF (F2 < 25000, 0.1 * F2, 0.15 * F2)
GROSS PAY	=SUM (F2 : H2)
PF	=IF (0.12 * F2 < 2000, 0.12 * F2, 2000)
PT	=IF (F2 < 10000, 100, 200)
NET SALARY	=I2 – (K2 + J2)

Program 04: Create table COMMISSION containing the percentage of commission to be given to salesmen in different zones as follows:

Zone	Percentage
South	10
North	12.5
East	14
West	13

Create another table SALES in the same worksheet to store salesman name, zone name, name of the item sold, rate per unit, quantity sold. Calculate total sales amount of each sales man. Referring the COMMISSION table, write the formula to compute the commission to be given. (Hint: If function and absolute cell addresses)

Using advanced filtering show the result in other parts of the worksheet.

- Show the records of various zones separately
- Show the records of only east and west zones
- Display the details of the items sold more than 50, in south or north zones

Sales table:

Zone	Percentage
South	10
North	12.5
East	14
West	13

Commission table:

Salesman	Zone	Place	Item	Rate per Unit	Quantity Sold	Total	Commission
Adithya	South	Mandya	TV	10000	55	550000	55000
Abdul	North	Mysore	Fridge	2000	60	120000	15000
Kumar	East	Hubli	AC	3000	25	75000	10500
Rajesh	West	Sirsi	Fan	5000	10	50000	6500
Salman	South	Mandya	Laptop	1500	44	66000	6600
Kuldip	North	Mysore	Mobile	1000	25	25000	3125
Yadav	East	Hubli	Charger	5000	67	335000	46900
Rakesh	West	Sirsi	CPU	4500	22	99000	12870

A. Show the records of various zones separately:

South:

Salesman	Zone	Place	Item	Rate per Unit	Quantity Sold	Total	Commission
Adithya	South	Mandya	TV	10000	55	550000	55000
Salman	South	Mandya	Laptop	1500	44	66000	6600

North:

Salesman	Zone	Place	Item	Rate per Unit	Quantity Sold	Total	Commission
Abdul	North	Mysore	Fridge	2000	60	80000	15000
Kuldip	North	Mysore	Mobile	1000	25	25000	3125

East:

Salesman	Zone	Place	Item	Rate per Unit	Quantity Sold	Total	Commission
Kumar	East	Hubli	AC	3000	25	75000	10500
Yadav	East	Hubli	Charger	5000	67	335000	46900

West:

Salesman	Zone	Place	Item	Rate per Unit	Quantity Sold	Total	Commission
Rajesh	West	Sirsi	Fan	5000	10	50000	6500
Rakesh	West	Sirsi	CPU	4500	22	99000	12870

B. Show the records of only east and west zones:

Salesman	Zone	Place	Item	Rate per Unit	Quantity Sold	Total	Commission
Kumar	East	Hubli	AC	3000	25	75000	10500
Rajesh	West	Sirsi	Fan	5000	10	50000	6500
Yadav	East	Hubli	Charger	5000	67	335000	46900
Rakesh	West	Sirsi	CPU	4500	22	99000	12870

C. Display the details of the items sold more than 50, in south or north zones:

Salesman	Zone	Place	Item	Rate per Unit	Quantity Sold	Total	Commission
Adithya	South	Mandya	TV	10000	55	550000	55000
Abdul	North	Mysore	Fridge	2000	60	120000	15000

Formula:

Total	=[@Rate per Unit] * [@Quantity Sold]
Commission	=IF ([@Zone] = \$A\$2, [@Total] * \$B\$2%, IF ([@Zone] = \$A\$3, [@Total] * \$B\$3%, IF ([@Zone] = \$A\$4, [@Total] * \$B\$4%, IF ([@Zone] = \$A\$5, [@Total] * \$B\$5%))))
